Health and Medical Discussion

3. Conversations at the Hospital

Doctor: Good morning Mr. Newman.

What is wrong?

Peter: Morning. I feel very ill. I am coughing and sneezing, I have feel hot and cold all the time and eating makes me feel sick.

Doctor: Let me take your temperature. How long have you had the symptoms?

Peter: They started about a day ago.

Health and Medical Discussion

3. Conversations at the Hospital

Doctor: Yes your temperature is very high. You have the flu. You'll have to go home and stay in bed until it gets better. Drink lots of water.

Peter: What about the medicine?

Doctor: I will give you something to reduce your fever but you just need to get bed rest. I will write you a prescription and you can collect the medicine from the pharmacy.

Peter: Ok, thank you.

Health and Medical Discussion

4. COVID-19 Pandemic Issue

Health and Medical Discussion

4. COVID-19 Pandemic Issue

World Health Organization

The World Health Organization (WHO) is a specialized agency of the United Nations responsible for international public health. The WHO Constitution, which establishes the agency's governing structure and principles, states its main objective as "the attainment by all peoples of the highest possible level of health"

Health and Medical Discussion
