Reading Comprehension တစ်ပုဒ် 2

Reading Comprehension ၁၀၀ ၂

It's 10 a.m. and once you enter the nurse's room at Marigot Jewelry (Thailand), you will be able to see a designated corner for mother's milk. At the time of our visit, ten mothers were preparing milk for their children to drink the following day. The mothers were exchanging experiences and talking about their babies, whether they'-d started teething, crawling etc.

Reading Comprehension ၁၀၀ ၂

One session of collecting milk from the mothers– breasts takes about 45 minutes to one hour. The division head acknowledges this fact and understands that it is important for the mothers to have this to prepare milk for their babies.

Reading Comprehension ၁၅၀ ၂

One of the women at Marigot is a 30-year-old mother who gave birth to a premature baby girl seven months into her pregnancy. Her newborn weighed only 1,600 grams and stayed in an incubator for 13 days.

Reading Comprehension ๓๐๕ 2

Initially she was going to send her baby girl back to her hometown in Sakon Nakhon after the mandatory three-month childcare leave. However, the mother later changed her mind after she became convinced that feeding her baby girl breast milk would nurture the frail baby back to health.

Reading Comprehension ၁၀၀ ၂

This mother admitted she feels very lucky that the company understand and supports her in giving her child breast milk. Not only does it save money but it has also strengthened the bond she feels with her child.

Reading Comprehension ၁၅၀ ၂

Because the mother didn't have to send her child back to her hometown, she is very happy in the workplace, which produces high-quality crystal pieces.

Reading Comprehension ၁၅၀ ၂

I don't have worries while working. When I think of my baby. I am happy and content that she is fast asleep. When my breasts start secreting, I just call a colleague and we go to the corner and start pumping milk for the baby. We meet our friends from other parts of the company and share our experiences. She said.
