The puzzle consists of a sequence of four circular diagrams labeled ก, ข, ค, and ง, followed by a blank space labeled จ. Each diagram is a circle divided into four quadrants. The center of each circle contains a square, a pentagon, a circle, and a crescent moon. The outer ring contains various shapes: a cross, a square, a circle, a heart, a star, a crescent moon, a pentagon, and a cross. The center of the circle is shaded in a specific pattern: in ก, the top-right and bottom-left quadrants are shaded; in ข, the top-left and bottom-right quadrants are shaded; in ค, the top-left and bottom-right quadrants are shaded; in ง, the top-right and bottom-left quadrants are shaded. The bottom row shows five options labeled 1 through 5, each with a different shading pattern in the center of the circle.
