4. Some problems can be solved with technology.

Robotics

Rebecca is a big help in her house. She carries things from one place to another. She can also open and close doors. And she never speaks unless someone speaks to her first. Rebecca does just what she is told to do, except when her batteries run down. Then Rebecca is no help at all, for Rebecca is a robot. Her heart is made of batteries, and her brain is a computer.

The English word *robot* comes from another language. The Latin word *robot* means work that is dull because it has to be done over and over. Robots are good for such jobs. They can be told to do the same thing again and again.

Rebecca is one of the thousands of robots used in schools and homes in the United States. Many of these robots are owned by people who have computer hobbies. These people enjoy telling their robots to do useful tasks.

13. What is the main idea of the story?

1. People use robots more because they are very helpful.
2. The word robot comes from a Latin word that means tiring work.
3. Robots can do anything except follow orders.
4. A robot needs batteries and a computer to work.

14. What does Rebecca do?

1. She helps the homeowner do household chores.
2. She speaks and translates another language into English.
3. She makes batteries and computers.
4. She has computer hobbies.

15. In which country does Rebecca live?

- | | |
|----------|------------------|
| 1. Latin | 2. The USA |
| 3. China | 4. Not mentioned |

16. From the passage above, which alternative is **CORRECT**?
1. Rebecca does what she is told, except when she runs out of her batteries.
 2. Thousands of robots are used in factories and hospitals.
 3. Robota means interesting and exciting activities.
 4. Many robot owners have computer stores.
17. What can be inferred from the story?
1. People are bored because they use robots to do their jobs.
 2. People cannot do the same thing over and over.
 3. Robots have become more common in our daily lives.
 4. Robots are getting smarter than humans.
